

BIOGRAPHY

Andrés is one of the co-directors of IDD LAC. He has a Law Degree from the Complutense University of Madrid and a Master's Degree in Latin American Economics from the University of Salamanca. He is also an expert advisor on telecommunications regulation and Internet governance.

He has had constant activity related to Internet governance processes, actively participating in the global IGF, and also as part of the leadership of the Latin American and Caribbean Internet Governance Forum (LACIGF). He has had active participation in eLAC strategy, the digital agenda for Latin America, coordinated by ECLAC, as a representative of the private sector. He coordinated the “Ibero-American Meeting of Digital Cities” and co-organized the ITU's “Green Standard Week” in its editions in Latin America, both events dedicated to promoting digitization and the sustainable growth of Latin American cities and villages.

From 2012 to 2020 he served as Regional Director of the Inter-American Association of Telecommunications Companies (ASIET) for the Southern Cone, focusing his activity on active involvement in the regulation of the telecommunications market in Latin America and the promotion of public-private dialogue.

His main research topics are the progress in digital ecosystem regulation, topics related to Internet Governance, initiatives to close the Digital Gap, Industrial Internet development, and the promotion of Smart Cities development in Latin America.

He speaks Spanish and English
